DEATH OF HON, EDWARD CONIGLAND.

Struck and Instantly Killed by a Train on the Wilmington &

Weldon Railroad. [Special Telegram to the News.] WELDON, N. C., Dec. 4.-About 5 o'clock this evening, as Mr. Edward Conigland, of Halifax, was walking on the track of the Wilmington & Weldon Railroad, about a quarter of a mile south of Quankey bridge, he was struck by a train and instantly killed. Mr. Conigland was very deaf and we suppose did not hear the train.

FOREIGN AFFAIRS.

French Situation -- McMahon Insuits the Paris Merchants --Threats of Demonstration.

LONDON, December 4.- A Paris correspondent of the Times telegraphs he private information, contradicting the French newspapers' accounts of the interview between M. Dufaure and President MacMahon. He says a few days ago Senator Duclerc presented to the Marshal an informal note, asking him as a satisfaction to the Left, to promise to propose a revision of the constitution in a republican sense. The Marshal sent for M. Dufaure to inform him that his condition was unacceptable, M. Dufaure replied that the Left desired a guarantee against the second dissolution, and that nothing could be easier than to find a guarantee which would not compromise the President's dignity. The correspondent concludes, The foregoing is all that occurred, consequently there is no ground for thinking the temper of the Elysee is changed. It is significant that the deputation of Paris merchants and manufacturers who went to the Elysee Monday, desiring to present addresses to President MacManon in person, were received by an Aide de Camp, who somewhat peremptorily referred them to the Minister of Commerce. The depudation retired, telling the Aide de Camp to inform the President that they were the vanguard of an imposing demonstration, which num-bered a thousand to-day and would number one hund ed thousand to-mor-

row, and a million the next day.
PARIS, Dec. 4.—Several journals state that M. Dufaure has undertaken to mediate between t'e Left and the Marshal and frame a political programme on which a Cabinet can be formed. Should the President accept the programme M. Dufaure will be charged with the formation of the Cabinet. He has conferred with M. Martel, Waddington and Pathuare. The Rappel states that Jules Ferry will be heard in the Chamber of Deputies Thursday, in behalf of the statement of the Budget Committee respecting the ministerial proposal that the Chamber vote for ect taxes separately from the Budget. Heavy Fighting at Tirnova and Kamarli. LONDON, December 4.-The Times' Belgrade correspondent says Prince an reviewed the militia on Sunday and exhorted them to do their duty. The war office has ordered all district governors to erect hospitals. The most probable plan of operations is that Gen. Horvatovich will make a diversion in rear of the Turks with two divisions. Gen. Gourko has promised to send him

8,000 cavalry.

A correspondent of the Times at Athens says according to the latest letters, the public feeling in Crete favors a rising after the fall of Plevna. The Greek government has warned the Cretans that it will stop volunteers and supplies if they rise prematurely or

contrary to its advice.

Concerning Suleiman Pasha's movements, reported from Constantinople yesterday, when it was stated that he was believed to be engaged in a strong effort near Osman Bazar, the Daily Telegraph's Shumla special, dated Sunday night, says: "No official news has been received here since Thursday. Important move-

ments are imminent, if not already progressing. Great anxiety prevails, and many rumors are circulating, among them that heavy fighting occurred on Friday in the direction of Tirnova, upon which place the Russians were ultimately driven back, losing over 3,000 men, and that the Turks are now bombarding Tirnova. All the available surgeons and dressers are going hence to Osman Bazar. Note.-The rumors at Shumla and

the correspondent's impressions seem to confirm the report that Suleiman Pasha is endeavoring to effect an important diversion by cutting the Russian communications along the north-ern slope of the Balkans. The move ment may be wholly imaginary, but it is very feasable, and the fact that the Russians say nothing about it must not be taken as contradictory. They would be likely to reserve a report until the movement was completed. CONSTANTINOPLE, Dec. 4.—Mehemet Ali telegraphs from Kamarli, under

METHODISTS IN COUNCIL,

North Carolina Conference, M. E. Church South--Forty-first Session. pecial Correspondence of the News.]

FIFTH DAY. SALISBURY, N. C., Dec. 3, 1877. The Conference convened according adjournment, and was opened with

J. P. Moore.

Bishop D. S. Doggett, D. D., in the The proceedings of Saturday were read and approved. Rev. Thos. S. Campbell, who was transferred from the Mississippi Conference, was intro-duced to the Conference and took his

seat among them.
Dr. A. H. Redford informed the Conference that they would find him in the rear of the church ready to supply them with books and periodicals, take subwith books and periodicals, take subscriptions to the various newspapers issued by the publishing house at Nashville, especially the Nashville Christian Advocate, and would be glad to receive the amounts due for books &c., heretofore obtained fore obtained. He also stated that Rev. T. A. Boone would, as usual, received subscriptions for the Nashville Christian Advocate. It was announced that Rev

P. L. Hermon would take subscriptic not to the Southern Review. The Bishop announced the arrival of the hour for the special order of the day—the election of delegates to the ensuing General Conference. Before entering upon it, however, lay delegate John Robinson, hoped the hour would be postponed until the committee on the division could report. Whereupon Rev. E. A. Yates moved that the report of that committee be made the special order after the election of delegates,

which motion was carried. Rev. T. H. Pegram, who had been eceived from the methodist Protestant Church, answered the call of the Bishop to go forward and take upon himself the vows of an Elder in the M. E.

Church, South. Mr. Jno. Robinson, lay delegate from the Charlotte district, said that he was authorized to announce that there was no foundation whatever for a report which was in circulation that Rev. W. T. Black purposed to take a transfer to the South Carolina Conference.

The Bishop said that he also was simlarly authorized. The Bishop now preceded to give the law and full and plain directions as to the manner of voting, which at once commenced with much spirit. Rev's. J. W. Lewis and P. J. Caraway were elected tellers on the part of the Clergy and Messrs. J. S. Carr and C. G.

Montgomery on that of the Laity.

The following Clergymen were elected on first ballot: Rev's, N. H. D. Wilson, D. D., 97 votes, Dr. L. S. Burkhead 92, W. S. Black 82, Dr. B. Craven 83, Dr. J. W. North 82, necessary to a choice 68. No election on second ballot, the third ballot resulted: Rev. E. A. Yates 79 votes, Dr. W. H. Bobbitt 67, necessary to a choice 65. It was decided to elect three Alter-

nates. The vote for these resultance revision and W. M. Roment having arrived, the time was extended. After some ineffectual balloting, a motion to adjourn until 31 o'clock was made and carried. The Bishop adjourned the Conference

with the Benediction. AFTERNOON SESSION .- The Conference convened at half-past three, and

was opened with religious exercises conducted by Rev. P. J. Caraway. Rev. Wm. Closs, D.D., in the cloir. Proceedings of morning session read and approved.

Rev. Dr. Redford made announce ment in relation to the sermons of

Bishop Marvin, and requested those who had spoken for them to please get Rev. W. A. Sharpe said he would take subscriptions for the St. Louis Christian Advocate.

The President said the unfinished asiness would now be taken up, being the election of the three remaining lay delegates to the General Conference.

On the fourth ballot Rev. T. M. Jones, D.D., and O. W. Carr, were elected. Dr. W. J. T. Miller was elected on

the fifth, which completed the list.

The lay delegales decided to elect three alternates upon the plurality vote, and a ballot being taken, J. W. Manney, Dr. R. F. Hacket, and Rev. R. L. Abunathy, were declared elected. Leave of absence was granted to N. I. Lawrence, W. W. Cole, H. M. Hor

ton, Rev. R. L. Abernethy, Dr. R. F. Hackett, S. S. Webb, G. W. Flowers, W. T. Garraway, Rev. J. B. Bobbitt, D. D., J. C. Pinnix, W. F. Stroud and K. K. Council.

Some opposition sprung up on the motion to grant leave, participated in

by Revs. R. O. Burton, Craven, Barrett and W. H. Bobbitt. The report of the committee on division of Conference being next special order, was taken up, and Rev. Mr. Hudson, chairman, submitted for the

ommittee a report, the substance of

which is as follows: 1st. The Conference has become too large to be entertained except by a few of the largest towns, in consequence of which the smaller places which would be glad to receive the Conference lose the benefit of its presence, and are deprived of the opportunity of extending their ready and generous hospitalities. 2nd. The territory of the Conference, embracing an area of 490 miles in length, and very dissimilar climates, the health of preachers is endangered by very wide removals, and the expense ramoval is too heavy.

3rd and chiefly. The spread of the gospel will be promoted by this division. A large section, lying between this and the Holston Conference, is unoccupied by ei her effectively and will so remain for an indefinite period under the present arrangement. The division of our large churches and circuits, it is well known, results in more active and effe tive labors and the more rapid growth of the parts. 4th. The division is a foregone conclu-

sion and only a question of time; and the present opportunity made use of may save to us the territory which otherwise may under less favorable auspices be lost to us forever.
5th and finally. With the territory
of this state in the Holston Conference given to us there will be enough to constitute two Conferences larger than the average—giving to the Eastern Conference 36,000 members and 100 pastorreasons the committee recommend the

adoption of the following resolutions:

To memorallize the General Conference to transfer to this Conference all those portions of the State new in the Holston and Virginia Conferences; but i the transfer of the latter cannot be secured and the former can, that the dividing line be made to run along the eastern boundaries of the Charlotte and

Salisbury Districts and westward with A discussion arose on the reading of the report, upon a motion of Rev. D. R. Bruton to strike out so much of the report as fixed the dividing line between the two Conferences, and a substitute therefor offered by Rev. V. A. Sharpe to so run the line as to include Anson, Davids n and Forsythe in the Western

Conference.

After much debate and many arguments participated in for the amendment of the report by Revs. R. G. Barrett, D. R. Bruton and W. M. Robey, and by Revs. R. O. Burton. H. T. Hudson and others, contrary. After various substitutes offered and rejected, the report was adopted. the report was adopted.

Colonel, what part did your Regiment and Pettigrew's Brigade play in the fight? On the first day Gen. Heth's Division occupied the centre of our line and the 26th Regiment was the centre of that Division. Col. Burgyn command-ed the Regiment. In front of our regiment was massed a brigade of the enemy in column regiments, one regiment being drawn up in rear of another. In the first place Gen. Hill might have enfiladed this brigade and routed them with his artillery. They were on the opposite side of a ravine from us and

After balloting several times the Laymon elected the following gentlemen, Messrs. W. F. Kornegay, Henry Lilly, C. G. Montgomery, F. C. Robbins. Here, by motion, the hour of adjournment having arrived, the time was expendent of the time of the time was expendent of the time was expendent of the time of the ward, which was the signal for the regiment to charge. I was then shot down. The regiment drove the enemy and our line continued to advance till we gained and passed the heights and went into the town. The regiment lost in this engagement over one half its strength.
The success of Heth's Division in carying the heights was not followed up and we were compelled ro retreat.

On the third, after the terrific losses

already sustained in the first, Gen. Heth being wounded, this div s on was again put in the front in a very important po-sition, while Anderson's Division which had not been engaged at all, was held in reserve. This division should have been put in the front and Heth's Divis ion, which was utterly untit to make the attack, should have been relieved. On the third day our division was much nearer the enemy's works than the right and left of our line, and Petti-grew's and Lane's Brigades reached the heights and the colors of the 36th Regiment were captured on the heights. The division was so shattered, and beng unsupported by our reserves, that it was compelled to retreat. This was all over before Pickett's command, which had a much longer distance to make, reached the enemy's works, and when they arrived, they could, with truth, say that they had no support. But it was no fault of the gallant brigades of Lane and Pettigrew.

[This statement of Col Lane would

seem to explain the conflicting state-ments of Col. W. H. Taylor and others.] When the army crossed the Potomac Pettigrew's Brigade numbered 2,800 men, and the 26th Regiment 980. When they recrossed, the brigade had 900 men and the regiment 66 men. The brigade was commanded by its Junior These figures give a lively idea of the loss sustained by Pettigrew's Brigade. And I think these three words, "all useful learning," will show, at a glance, to any man whose mind is not biased by denominational interest, that all things must be taught, begin-ning with the kindergarten and ending with the transcendental in art, litera-ture, science, philosophy and religion. From the first, this has been the plan of instruction carried out by those who have from time to time presided over

ple are doing something they know to be impossible. They are assigning the University to a sphere which they have no right to give it. They are endeavering to make it so that young men who are seeking the best education the State can afford, either become members of the colleges and schools of the State, or go to Northern colleges and come back to increase the reputation of Yale or Harvard, or Columbia, as the case

say where the owner of the land shall plow, sow or reap. None whatever. And so it is with the University. By a vote of the people in 1776 and again in 1876 the educational interest was preempted by the University and what right has any sect or class of men who may through prejudice, found other schools or colleges, to say in what sphere the University shall work.

I have endeavored to make the following points which I hope are plain:

3. No one has a right to dictate to the state what it shall or shall not

An interesting discussion has been carried on lately in the Advasate by Dr. Burkhead, W. L. L. and others, in which several unwarranted attacks have been made upon the University; when, how or by whom I will not state. Probably they were not at all intended as attacks, but in my humble judgment they were. In this short letter I shall not were. In this short letter I shall not endeavor to answer any points put forward by any of the gentlemen referred to above, but as a citizen of North Carolina, and being anxious of seeing all that pertains to North Carolina succeed, I have taken the liberty to state briefly what I consider to be the true position occupied by the University towards the educational interests of the State, and to the masses of citizens of the State, not to any particular denomi-

Another point I wish to dwell upon, and that is that there are three factors in education-the teachers, the means of teaching and the taught. Admitting that any college in the State is equal to the University in teachability of its professors—and this cannot with fair-ness be admitted—then we have the University ahead in the means of instruction and in these to be taught. will go further, and allow any college to have the same means for teaching—and this they have not-then the University has the advantage in those to be taught.
They may, I say, be equal in the first

Its True Relation to the Educa-

To the Editor of the News:

If the University of North Carolina es not work in so extended a way as

meagre help the University has received from the State. Suppose the Legisla-ture were to appropriate the amount necessary to make the University selfsustaining, independent of the number of students. Then the question naturally comes ur, and very properly too:
"Is North Carolina ready for such an
Institution?" Are there enough men

t is at any time it is for the whole state

Of course it may be convenient for way in their efforts at education, and est veneration for the state and advocate the slope, but after all their true motive and entered upon by the

The state has assigned the Univer-

sition of the State must ever be superior have a five cent segar that cannot be exthe youths of all the parties congregate,

there will be more efficient teaching and more effectual teaching than where only a part are found, so also where some of all are found compared with

only some of a part. It is evident a part cannot equal the whole, or a proportionate part of a part equal a corresponding proportionate part of a whole. The question then is: How can citizen of a State do most in educatio for his State? By working with all and for all, or by working with only a part for that part? Had then a University such a Faculty, or such a course of study as a college, it will be such as a college of study as a college. of study, as a college, it will, it must afford a better education than any lege, because it works in all, for all, by all, on all. And any university which is not only superior to any college in a State in the means of teaching and the material to be taught, and to say the

least the equal in its teaching ability. far eclipses that college in the good to does, since its work is for the estate, and not a part.

The last point upon which I claim your space is this matter of what church, or sect, or party deserves the greatest representation in the Faculty from the taxes paid for its support. Tell me what class of people, of what color, race, religious or political belief, is taxed a cent to support the University of Nerth Carolina. The money—the doleful pittance given to the University by the State, is not the State's to give. It belongs to the University of North Carolina, given by the general govern-ment of the United States. It was given to maintain "Mechanical and Agricultural Instruction," and wh n the University complied with that, the money belonged to it. There was a m-thing over \$125,000 and the government requires the State either to pay the interest on the amount to the advancement of this education or to pay the

entire amount back to the United States

Treasury.
The President of the University, in his admirable address on the "Relations of the University to Agriculture," has explained the matter and any fairminded man will see the inconsistency of charging that one class or sect of people are taxed more than another to apport the University of North Caroina. They are taxed to pay a just debt. I have written this, not for the purpose of provoking any correspondence with any one. Neither have I written it for the purpose of justifying the University, because it needs no defence at anybody's hand. It is a true disseminator of learning upon the princi-ples upon which it was founded, and the so-called friendly suggestions thrown out by men professing great ove for the University, only point out he inconsistency of those who wrote the article. They are sore. They are afraid the University will get some of their student, Hinc illae lachrimae.

POSTON, MASS. MR. H. R. STEVENS.

Dear Sir.—My only object in glving you this testimonial is to spread valuable information. Having been badly affilted with sait rheum, and the whole surface of my skin being covered with pimples and eruptions, many of which caused me great pain and annoyance, and knowing it to be a blood disease, I took many of the advertised blood preparations, among which was a: y quantity of Sarsaparilla, without obtaining any beacht until I commenced taking the Vegetine; and before I had completed the first bettle I saw that I had got the right medicine Consequently I followed on with it until I had taken seven bottles, when I was pronounced a well man: and my skin Is smooth and entirely free from pioples and eruptions. I have never enjoyed so good health before, and I attribute it all to the use of Vegetine. To benefit those afflicted with rheumatism, I will make mention also of the Vegetines. To benefit those afflicted with rheumatism, I will make mention also of the Vegetine. To benefit hose afflicted with rheumatism, I will make mention also of the Vegetine to be on the saute compaint, of which I have suffered so intensely.

The building stood on the hill upon which McClellan's line was formed, the line being of crescent shape, and the dwelling occupying a point near the left centre of the enemy's line. What an interesting story we might present to-day if the war-experiences of that well remembered structure could be laid before our readers!

THE Directors of the Insane Asylum meet to-day. An election for officers of the Institution will take place. The views of the NEWS, elaborately and persistently stated last winter, when the subject was agitated before the Legislature and in the public prints, are too well known for repetition. We demanded "a clean sweep." We believed we spoke the prevailing sentiment of the Democratic Party of North Carolina. The Board who are to act to-day are excellent gentlemen and democrats. They were appointed by the Chief Executive of the State, by and with the advice of the Senate. apl12-1y. In Open Letter to the Public. New Yo K, October 1, 1877.

I have devoted twen years of patient study to the Liver and its relations to the human body, in search of a remedy which would restore it, when diseased, to its normal co-slitton. The result of that labor has been the production of NEW YO K, October 1, 1877.

TUTT'S LIVER PILLS.

Their popularity has become so extended and the demand so great as to induce unscrupu-lous parties to counterfeit them, thereby ROBB NG ME of the reward, and the afflicted of their virtues. To Caution the Public

and prote them from vile impositions, aave ador ed a new label, which bears my trade-mark and notice of its entry in the Office of the Libracian of Congress, also my signature, thus;

Jost Jutt M. G.

TO COUNTERFEIT THIS IS FORGERY. Before purchasing, examine the labe closely.

THE GENUINE TUTT'S PILLS

exert a peculiar influence on the system Their action is prompt, and their good effects are felt in a few hours. A quarter of a cen tury of the study of the Liver has demonstrated that it exerts a greater influence over the system than any other organ of the body, and when diseased the entire organism is deranged. It is specially for the heating of this vital organ that I have spent so many years at toil, and having found the remedy, which has proved the greatest boon ever furnished the afflicted. Shall they be deprived of its benefiss, and a vite imitation imposed upon them?

Let the honest people of America see to it that they are not defrauded. Scrutinize the laber closely, see that it bears all the marks above mentioned, and buy the medicine only from respectable dealers. It can be found everywhere.

Very respectfully, THE GENUINE TUTT'S PILLS

WEDNESDAY, DECEMBER............5, 1876

1 HE WEEKLY NEWS IS the best weekly paper published in North Carolina. It is only OSE DOLLAR per year, postage paid, contains 32 columns of plain printed news from every section of the country, and important advert a ments. Always Cash. The Sentiment Good, Anyhow

"A Newsboy" sends as the following poem. It is lame as regard to feet and not altogether correct in other particulars, but the sentiment is good: The poor little newsboy, the first vou'll meet in the morn,
With bis hands and his feet nearly frozen with cold; A paper to buy he'll ask the first he'll meet, To keep a poor mother from starving and to keep the cold from his feet.

[From the Indianapolis Herald.]

The poor newsboy has a bard life you know, By buying his papers a risk he must go, And if "stuca," will lose on the sale. The poor little ones are counted but thieves, But that is not so, they are honest and far from thieves, and do not steal, Though poor they may be, they are shabby genteel.

The poor little newsboys are obliged to take curses and thumps.

And if they say anything The police will "run them in."

Then the charge of thieving will be put against them, no doubt.

But God in the heavens above is the judge o

that poor boy.
Who is cast into prison, and his mother and sisters are starving at home.
While out in the streets he ought to be, asking the people a paper to buy.
To keep that family from starving, God bless him, good-by.

GENERAL NOTES.

The public debt reduction for November is not as large as usual-in round numbers, only thirteen hundred thous

There are various popular ways of pronouncing the name of Goethe. Some say Gotay; others say Gaytey; others say G'ngh-tay; but a Jerseyman calls it Gaster. This is probably because Goethe was always round a lady.

The New York Times raises the question, "Is Christianity a Failure?" It takes the negative, and in a long and able article defends the church from the heavy assaults which many orators and writers have been making upon it.

No colored military companies are allowed in Ohio. Two such organizations in Cleveland were disbanded the other day by the Adjutant General, in obedience to the law of the State, which says that only "white male citizens" can put on military toggery. The law was passed by the Republicans.

New York Tribune: The late Bishop Marvin is said to have once expressed a belief that there was a possibility, after death, of learning about astronomy what mankind had failed to learn on this earth, and that there was no knowing whether we might not be allowed in the spiritual state to visit the various planets.

A Paris Mystery.

Paris has a ghastly mystery. A fortnight ago one of the dredging barges on the Seine ran against the body of a beautiful woman, elegantly dressed. She wore a black silk gown, trimmed with lace, had gold bracelets on her arms, diamond rings on her fingers, and flowers in her bair. She seemed to have come from a wedding or a party. And so the poor thing had! The body was identified at the morgue the next day as that of Antonia Balade, aged twenty-two, the wife of M. Louis Frampourmois. They had been married only three months and had been very happy. They were invited to a wedding, and while they were at supper with the bridal pair and the weding guests, he quarrelled with his father-in-law over money matters. They returned to their midnight. The lady bitterly reproached her husband for having quarrelled with her father, and the husband rep'ied in a passion, 'If you prefer your parents to me, you had better go and live with them at once;" on which she expressed her intention to start imme diately for her father's house. She opened the door, and, as she was in evening dress, he placed his overceat or shoulders to prevent her catching cold. On the following morning he sent a change of clothes to his wife; but on the servent arriving with them at the house of the parents, it was discovered that nothing had been seen there of Madame Frampourmois. All apher friends were visited, but in vain; no trace of her could be found. At length they resolved to go to the Morgue, and on entering that sinister looking building M. Frampourmois saw the body of his beautiful young wife, lying exposed on one of the marble slabs.

Death of Judge Hall.

[From the Warrenton Gazette. Judge Edward Hall died at his residence in this place last Wednesday morning, about 1 o'clock, in the 82ud year of his age. His life flickered out like a candle, and his death was, we suppose, almost painless. The subject of this notice graduated at the University in 1815, in the same class with Judge Mangum, Dr. Hawks, Gov. Spaight and other distinguished men. graduating, he studied law and devoted himself to its practice until 1840; when he was appointed a Superior Court Judge to fill an unexpired term. But few of his decisions were overruled and he was considered one of the best posted Judges upon the circuit. For many years preceding his death, he retired rom active business, and passed a retired life, scarcely a companion save his books. But while withdrawing himself from the active walks of life, Judge Hall by no means lost his interest in the politics of his country, and almost every day up to within a few months of his death, he read the newspapers with eager interest. He was a man of singular purity of character and in-tegrity of purpose, and abhorred a mean action. We feel that in his death almost the last link in the chain that bound our immediate citizens to the past has been broken. As Judge Hall was never married, his nearest relative is a sister, Mrs. B. E. Cook. His remains were followed to the grave yesterday by the old and young of our

A Wrecked Existence.

Other conditions being equal, there is no reason why a heatthy man or woman should not enjoy and it may well be doubted whether adverse fortune has the power entirely two destroy the happiness of one who sleeps soundly and whose digestion is good. But for the nervous, fee-bie, dyspeptic invalid, there is to comfort in life. His existence is indeed a wretched one. But he should not despair of relief. That benignant restorative, Hostetter's Stomach Bitters, has imparted healthful vigor to many a self supposed incurable. It is an unequalled bander up of broken down physiquess, and is besi les a sovereign remedy for dyspepsia, nervousness, irregular habit of bod billiousness and kidney and bladder difficulties. It eliminates from the blood the acrid element which gives rise to rheumatic aliments, cheers and relieves the aged and infirm, and may be used with great advantage by ladies in feeble healta. Its perfect purity also commends it to the use of invalids.

United States Circuit Court, .Tuesday, December 3.

The United States Circuit Court for the eastern district of North Carolina met in Metropolitan Hall, this city, yester-day at 10 A. M. Judges Bond and Brooks presiding.

The case of John London, assignee

for Jacob Lyon, vs. First National Bank of Wilmington was resumed. The argument on part of the defence was concluded by Maj. W. S. DeVane. The court reserved its decision.

The jury in the case of the United

States vs. G. W. Watkins of Granville county, (to which we referred yestercay) "for removing and concealing tobacco without stamps," after a consulta-tion of nearly twenty four hours came into court and rendered a verdict of guilty. Judgment was prayed, but sentence not yet passed.

The United States vs. A. J. Demei t of Granville county, "for having in pos-session tobacco fraudulently stamped." nol. pros entered.

The United States Ex. Reli L. J Lanier, et al of Baltimore vs S. T. Carrow, et als, motion for a new trial was made. Motion overruled, and judgment against plaintiffs for costs.

The case of C. M. Hawkins vs the A. & N. C. R. R. Co., of which we made mention yesterday, was set for hearing on Monday next the 10th inst. The case of Swazev vs. the N. C. R.

R. Co. will be heard on Saturday next. The civil docket was called over—several continuances entered—but no cases tried, some were set for trial during the

Among the cases set for trial to-day is Ober of Baltimore vs. Grimes of The court ordered seven talesmen

summoned for jurors. They were sworn, but subsequently discharged. Upon motion of District Attorney Badger, a rule was granted against John Robinson, United States Commis-sioner at Goldsboro, to show cause why he should not be removed from office It is charged that Mr. Robinson has been guilty of imposing fines in certain cases unjustly, and in one instance a party for the non-payment of costs was sent to jail by the Commissioner. T. C. Davis, of Wilson, N. C., was

appointed United States Commissioner At 4 p. m. the Grand Jury was discharged for the term, and the court adjourned until 10 a. m. tomorrow.

Rebuilding the Bridge of the Seaboard and Roanoke Rai!.

road Company. The contractors for rebuilding the temporary railroad bridge across the Roanoke river at Weldon, for the Sea-board and Roanoke Railroad Company, commenced landing material on Saturday last. Active building operations will be begun this week. From the Norfolk Virginian of the 2nd inst. we learn that R. T. & W. Neely, of that city, will furnish all the heavy timber to be used in the structure. A large quanti-ty of the material will be supplied, however, from points along the Raleigh and Augusta Air-Line Railway. The and Augusta An-line Rahway. The railroad company propose to construct a substantial iron bridge over the Roa-noke at an early day; indeed the Presi-dent of the company, Maj. J. M. Robinson, is already negotiating with the great iron men North who do such work.

It is confidently expected that the

freight and passenger trains of the company will pass over the temporary bridge on or before the 15th of this Special Church Service.

Those eminent divines, the Rev. Dr. A. T. Twing, of New York city, and the Rev. Dr. C. H. Hall, of Brooklyn, who were to have held a missionary service at Christ Church last night, did not reach the city in time in consequence of the detention of the Eastern train. But they have now arrived and the special service will be held this Wednesday night regardless of the state of the weather, at Christ Church at 71 o'clock. Bishop Lyman will be present and assist in the services. The public, as alway, are cordially invited to be present, and a service of more than ordinary interest is confidently promised

Killed on the Railroad.

David Powers, of this county was killed on the lines of the Raleigh and Augusta Air Line Railway and North Carolina Railroad Company, on Mon-day night last. We have not been able to learn the particulars of this accident. It seems that Powers left the city cation, and it is thought he was lying on the track of one of the roads men-tioned when the accident occurred. The coroner summoned a jury of inquest and went out yesterday to where the dead man was found. The verdict of the jury could not be ascertained at a late hour last night.

Rev. Needham B. Cobb, of Anson county was in the city yesterday. Hon. Joseph A. Engelhard, Secretary of State, accompanied by his accomplished wife, left yesterday for a brief tour to Baltimore and Washington

GRAND LODGE. Proceedings of last nights' Ses-

J. B. Neathery, from the Committee on Credentials, made a partial report that delegates from over one hundred lodges were present, whereupon the Grand Master declared a quorum pres-

ent, and the Grand Lodge ready to proceed to business. The Committee on Credentials asked and obtained leave for further time to complete their report.

Past Grand Masters John Nichols

and Geo. W. Blount were present. · GRAND MASTER'S ADDRESS. The Grand Master delivered an able interesting and highly instructive address of an hour's length. He stated that peace and harmony prevailed throughout the entire jurisdiction of ments. But these are the exceptions,

an appropriation for its support.

He referred to the dispensations charter of one Lodge and suspended the Master of one Lodge from the functions of his office. Had by proxy dedicated one Masonic Hall, and laid the corner stone of one M. E. Church at Reidsville. He urged strongly the adoption by the Grand Lodge of the system of District Deputy Grand Masters, and pre-dicted great good resulting from the

He visited the Orphan Asylum, this noblest of North Carolina Institutions, in June, and was highly pleased with the details of the management, inaugurated and conducted by its able efficient and energetic Superintendent J. H. Mills. He paid a glorious and deserved tribute to the memory of Past Grand Master Wm. G. Hill, who had so worthily filled with honor to himself and credit to the fraternity, the highest offices in the gift of the Grand Lodge. He made twenty-six rulings during the Masonic year, some of them being new, but most of them ought never to have been submitted to him, as they were fully covered by the Code.

MASONIC JOURNALISM. He regretted the want of ap-preciation by the fraternity of Masonic journalism, exhibited in not sustaining the Masonic journal, published at Greensboro, which had to suspend publication for want of patronage. Spoke favorably of the Friend, published at Oxford by the Superintendent, as an important part of the orphan work, and recommended it to the fraternity as entitled to a much more liberal patronage than it has here-

He called attention to the unsolved problem of the branch of Orphan Asyum located at Ashville and recommend ed that a committee of three brethren, members of the legal profession, be appointed and clothed with full powers to report what action should be taken, to the Grand Master, and that the Grand Master be instructed to carry out the recommendations of said com-

In conclusion he called on the Grand Lodge to put its absolute seal of conlemnation upon the recent act of the French Masons, rejecting from the Masonic creed, a belief in Deity. On motion of Col. Kenan the Grand Master's address was referred to a committee of three, consisting of Thos. S. Kenan, L. A. Bickle and John

TARY. As usual this most efficient officer made an exhaustive report, showing that while the progress made in the or-der during the Masonic year had not been as great as could be desired, yet it was fully up to the average; that the committees, which being amended was worthy who had applied for admission had been received; but the unworthy had been freely rejected.

GRAND TREASURERS REPORT. The Grand Treasurer submitted his

an elaborate report of this noble institution, covering its proceedings since

Total Discharged, Runaway,

Leaving now at Oxford Cash receipts to Dec. 4 have Disbursements, Leaving on hand to-day, \$78.37 The amount received is less than

usual and the falling off is mainly on

the part of the Lodges.

The largest amount received by any of Ancient Free and Accepted Masons was held in Masons' Hall last evening at 7 o'clock, Grand Master H. H. Munson in the Grand East. Lodges in this category. The contribu-tions generally by Lodges are woefully small, and only eighty-seven have re-sponded to the wants of the asylum, leaving one hundred and fifty-three working Lodges in the State that have not contributed anything.

We clip the following from the report Amount contributed by lodges \$1480.79. Some Lodges not mentioned in this list, as for example Adoniram No. 149, have made liberal contributions in kind. Some of those contributing cash, as for example Berea No. 204 and St. John's No 1, have also contributed freely in kind. The members of some lodges have also contributed nobly as individthe State, that the ordea was in a highly flourishing condition, and that its numbers were increasing.

In accordance with a resolution of the Grand Lodge, he had appointed a committee to present the claims of the Orphan Asylum had on the State, to the phan Asylum had on the State, to the company Legislature and ask that body to make of lodges, when present at our orphan entertainments, have declined He referred to the dispensations granted to form new Lodges (see report of Grand Secretary). He arrested the charter of one Lodge and suspended the dividuals and several lodges have done their whole duty and some have been liberal beyond their means; but the burden of supporting the orphan work has not been fairly distributed. Neither has the amount of cash received been sufficient to justify the purchase of some things really needed: but by using fruits and vegetables very large-

ly, by raising pork, by fattening beeves, by selling blooded pigs, by requiring the girls to do all the cooking, by discharging the hand usually hired for heavy work, by doing without a steward, and by rigid economy in every depart ment, we have been able to keep the premises in good repair, to enclose a large pasture for the stock, to erect a two-story building for the use of the boys, and to feed, clothe and teach an average of one hundred and twenty After an experience of five years we

find that the food, clothing and instruc tion of each orphan will cost about five dollars a month, and the repairs and incidental expenses will add another dollar, making a total expense of six dollars a month for each orphan in the institution. The work need not cost any more : but to be well dope, it ought not to cost any less.

He reported that the children and teachers of the institution for the year had been unusually good and that the e had not been a single death. He recommended the adoption of the following resolutions:

"That it shall be the duty of every Lodge to pay to the Orphan Asylum five dollars for every person initiated, and not less than five cents a month for every member on its roll, and to state in its annual returns to what extent this duty has been performed."
2. "That any dimitted or non-affiliated Mason may send five dollars a year

to the Orphan Asylum, by the Committee in whose jurisdiction he resides, and be thereby entitled to all the rites and benefits of Masonry, except membership in a subordinate Lodge."
3. "That hereafter orphans shall be received between the ages of eight and twelve and discharged at sixteen. 4. "That an Agent shall be appointed

to canvass the State and secure subscriptions to the Orphan's Friend, contributions for immediate use, and funds for a permanent endowment." The Orphan's Friend is a very important auxiliary to our work. Its sub-scription more than meets expenses, and

its influence augments the income both in cash and kind. But its subscription and its influence ought to be largely increased. Col. Kenan from Committee on Grand

Master's address, recommending a refer-ence of the various subjects mentioned by the Graud Master, to appropriate Dr. Grissom read a plan for the per-

manent endowment of the Orphan Asylum, prepared by F. H. Cameron, President of the North Carolina State Life Insurance Company, and asked that it be referred to a special committee of seven. It was so ordered, and committee appointed, consisting of J Batchelor, John W. Cotton, G. Blount, G. B. Harris, L. A. Bickle Robt, Bingham and A. M. Noble.

Dr. Grissom asked to be excused from serving on this committee. The following standing committees were announced: On Charters and Dispensations:

Damp cellars made healthy. Barns and stables purified; put it in water c'osets and urinals and it renders them odorless and free from contagion. Thickly inhabited houses, crowded rooms and halls given a pure and healthy atmosphere by allowing it to evaporate. Street cars should use it and thus drive contagion from them. For ships it is the best known means for counteracting the odor from bilge water, will purify the ship and in no way injure any material. Beer saloons should use it as all bad odors will immediately disappear. Rallroad companies need it in their waiting-rooms and water closets. Restaurants and hotels need it.

Undertakers can preserve bodies one month with one pound of the Disinfectant.

sel5dtf TO LET For the 1ear 1878.

On Wednesday, the 5th day of December prox., I will let at public outery, at the Court House door in kaleigh, for the year 18.8, the following stores, houses and lots in the dity of Raleigh, belonging to Mrs. Mary A. Morehead, viz: The store-houses now occupied by J. D. Newsom, Mrs. M. A. Hardie, W. B. Hutchings, Pescud , Lee & Co., Wm. Simpson, and J. M. Roseuba'am, on Fayetteville Street; those occupied by J. C. Brewster and B. H. Woodell, on Hargett Street; those occupied by Geo, D. Culley, J. Lamcnd, and the blacksmith shops and lots occupied by Henry Hunter and Chap Haywood, on Wilmington Street; the shops occupied by Charles Comby and Geo. W. King, on Salisbury and Hargett Street, soccupied by Mrs. Marley, and those on Salisbury street cecupied by Polandam. Mrs. Justice; a store and lot at corner of Salisbury and Morgan Streets occupied by Jack Harrison, and the houses and lots on Blount Street occupied by J. W. Rogers, and those on Davie Street occupied by Frank Norwood and 4rs. Mike Jones, and vacant lots Nos. 2.3 and 219 in the eastern part of Raleigh; also the following tracts of land in Wake county:

1. A plantation of about 500 acres adjoining lands of Mrs. Kimbro Jones, P. F. Falson Wm. Boyland and others.

2. A tract of about 250 acres sdjoining lands of Carrol Minling Co., known as the Vandergriff tract.

3. A tract of about 221 acres on Rocky Branch, adjoining W. J. W. Crowder, S. N. Young and others.

4. A tract of about 29 acres known as the Emory tract, near Tupper's X Roads.

dartsfield place, adjoining sthers.

TERMS—Bonds and security required payable in quarterly installments.

W. K. DAVIS,
Guardian. Land for Sale. Being engaged in other business, I offer my tract of land, lying on the south side of Pamilico river, at the mouth of Chocowinity Bay, about four and one-half miles below the town of Washington, containing six hundred acres or more, about eighty or ninety acres cleared (but has not been cultivated for the past three years and has grown up somewhat;) clay, sub-soil with marl beds, land high and requires but very little drainage, and susceptible of a high state of cultivation, there is a two-story dwelling on the premises, partly completed on the inside, with all the necessary out-buildings. Good so he beach for spring and summer fishing. About 200 bbis, turpentine can be made on the land. It is well-timbered; timber easy to get to water; splendid opportunity for cutting pine and other wood for the Northern market and this market, and within 24 hours of Norfolk by steamboats.

Would prefer to sell one-half to some good farmer who will take the place in hand and cultivate to best advantage for both parties. Will render what assistance I can, or will sell the whole tract, if desired, at a liberal price. Call on, or address the subscriber, at Washington, North Carolina.

R. B. WHITECAR.

FOR SALE. A VALUABLE HOUSE AND LOT CITY OF RALEIGH.

Will be sold at auction on Monday, December 31st, at 12 m., on the premises, the house and lot on West street, near the terminus of Jones street, lately occupied by Mrs. Candace Beavers. The house is a two-story, and contains 6 rooms, 4 of them with fire places, well of excellent water at the door. The lot contains one-third of an acre; there is on it, besides it e dweiling, a kitchen with two rooms, each having a fire-place; smoke-house and an excellent garden containing peach, apple, apricot and plum trees of choice varieties. Possession given at once. This property is sold for division among the heirs of the estate.

TERMS—one-half cash, the other half payable in 12 months, title retained until the last payment, on which 6 per cent, interest will be charged.
